

YOUR FAVORITE.—Our immense stock of boys have met with immense sales, but we have still enough left to supply the wants of everybody. Come early and make your selections before they are all gone, as we are selling them at prices within keeping of the times. Our stock of Christmas and New Year's cards, received this week direct from the importing house of Le Count Bros., are the finest and most exquisite ever displayed in this town. Come and see for yourself. We have been appointed sole agents for A. Hinchman, the largest importer of diamonds, fine jewelry and silverware on the coast, and can furnish you fine goods at San Francisco prices. Give us a trial order. Our stock of scrap-books, albums, writing-desks and beautiful boxes of writing paper are perfect in every detail. And don't forget that we are the ones who are selling exquisite "Too! Too!" cigars for 12½ cents, the immense sales being ample proof of their quality.

WEATHERMEN & GEAR.
OF INTEREST TO ALL.—It will be seen by their new advertisement that the old and reliable firm of J. Myers & Bro. intend winding up their Pioche business. The public will do well by calling on them at an early day and examine their immense stock of clothing, dry-goods, boots, shoes, etc., and comparing prices with other houses in town, and we are satisfied by so doing even in these dull times it will be no trouble for this firm to sell the balance of their stock off in the next 30 days. They also call the attention of all their customers to the fact that they have closed up their books, as they are preparing to leave Pioche, and all goods sold now for the short space of time that they remain in Pioche, will be sold for cash only and at such prices that they will convince you that they mean what they say. Persons in Pioche and surrounding country knowing themselves indebted to J. Myers & Bro. are requested to settle their accounts before the 1st of January, 1883, as all accounts outstanding at that time will be handed over to an attorney for collection.

JIM CROOKS, Register at El Dorado Canyon, writes up to Pioche that he kept the registration books open until the night of the 27th of October, and posted his lists up on the 28th, and that he also registered five voters after 20th of November. That he read the law, and that his translation of it was, also that it was the opinion of others, that the books could be kept open until the night of the 27th of October.

FRED STROMBERG, who has been doing business in Bristol for the last four years, sailed up to Pioche during the week and left for California. Fred is a good general fellow, and all who know him like him. He will be absent several months in the Golden State, and when he returns he will be traveling in double-harness along side of a running mate. May he have a pleasant trip and jolly time.

Now, as we have a dull winter before us, the best thing our residents can do is to join hands and have a jolly time for the purpose of whiling away the dull time. It would be a good idea to form a club and have a hop once a week.

"And the night shall be filled with music,
And the cares that infest the day
Shall fold up like leaves, like the Arab,
And so silently steal away."

A DREADFUL THREAT.—As a little boy and girl was walking along the street yesterday, the boy carrying a paper-bag of candy, the little girl said to him: "Now, Willie, if you don't give me some candy, I'll lend you one of my stockings to hang up Christmas night, and they hold twice as much as yours do." The candy was divided.

FOR SALE.—J. L. Sears offers for sale cheap, for cash, one dwelling house, furnished complete; one dwelling house partially furnished, and a Singer's cabinet sewing machine. Here is a chance to buy good property at a low figure.

THE DAY COMPANY has been shipping considerable bullion from their furnace at Bristol. There is not more than 100 tons of bullion now on the furnace ground. There is considerable copper matte yet at the furnace.

BALD HEADS are good for something after all. A Bristolian, describing a fight that he had out in that town the other day, says that he hit his opponent twice on the head, but that it was so smooth that his fist glanced off.

LAST SUNDAY evening, at about six o'clock, a most beautiful meteor appeared in the northwest part of the heavens, causing a bluish-green light, which for an instant lit up the whole of the heavens in the northwest.

LOUIS SELTAN, during the fore part of the week, sent a couple of men and a load of provisions down to Pennsylvania District and is having assessment work done on his mining property in that district.

FINE BULLION.—J. Poujade shipped on Monday last two bars, valued at \$2,628.81. He shipped during last month \$10,000 worth of fine bullion.

A good method to get rid of a troublesome mother-in-law, is to attempt to shoot an apple from off her head.

THE LOWER WORKINGS in the Day mine are said to be good.

J. R. DUFF returned from his trip last Saturday evening.

BULLIONVILLE AND PANACA DOTS

There were a dance in Social Hall on the evening of the 8th.

We have noticed a large number of loaves in from Utah during the week.

The smelting company has erected a commodious store-room adjoining their store.

Our girls deny wanting to know that Bristol youth's occupation. What they wanted to learn was his dancing capabilities.

Messrs. Wertheimer, Sparks and McCarter paid Bullionville a visit Wednesday evening.

Supt. Frank Godbe has been slightly indisposed during the week from the effects of lead poisoning.

Postmaster G. Odell contemplates a visit to Salt Lake after the 10th, on business connected with the smelting company's store.

Bullionville is livelier at present than we have ever seen it. McMahon's club-rooms being nightly filled with the sporting fraternity.

The Bullionville Social Club are already making preparations for a good ball, to take place in their town on the evening of the 22d.

Matrimonially engaged young men should not skulk around with other girls, and try to take them to dances, as an acquaintance of ours done lately in Bullionville.

We would suggest to the brethren that steps be taken towards fencing in our burial ground; as it is, animals of all kinds trample over the graves, and otherwise desecrate the resting place of our loved ones.

The smelting company's store in Bullionville has a large and varied stock of goods on hand that they are selling at Salt Lake prices. Young men will find quite a variety of fancy toilet articles suitable to the bonheur of the most esthetic of their young lady friends, and as the holidays are approaching, they are expected to make an appropriate Christmas present or New Year's gift.

The smelting company's furnace completed its two hundredth car load of bullion, or 44,000 bars, on Saturday. This, at its market value, is worth in the neighborhood of \$400,000, and when it is taken into consideration that it has been extracted from only one half of the tailings of the Raymond & Ely ores, the other half remaining to be worked, a fair idea can be had of the productiveness of said properties, before their owners became at loggerheads.

There is a young sprout in Bullion, scarcely out of his teens, that has captured the affections of the "belle of the town," despite the opposition of a half dozen matchmakers. This is provoking to the latter individuals, who consider themselves no small potatoes, and cannot account for the lady's taste in preferring a beardless youth to their pretty self; but she—sensible girl—says that he does a man's work, gets a man's wages, and is withal the best looking young fellow in the country.

There are a few Jack-Mormons in this section that make a business of carrying stories to and from our village. They visit Bullionville regularly, and if they find anybody there that will set 'em up, or lend them four bits to get a square meal on, they will unburden themselves of a lot of trash about the exclusiveness and prejudices of the Mormons; and a half hour later, when they return home, it is with a well-filled sack as to how the Bullionites disrespectfully talk about us. These filthy parolers of truth, have caused hard feelings between the people of both places more than once, but we have spotted a couple of them, and the next time they resort to such a practice we will publish their names, so that the community may know who they are.

"Trippy," the phenomenal editor at Bristol, "and sole proprietor," is heard from again. This time we are a Mormon idiot, instead of a cavorting lunatic, and in order to show his readers—God bless the mark—the kind of a carrot-eater that we really are, he publishes part of an item that appeared in the RECORD some weeks ago, which contained our opinion of Harry Gormely, and asks, why we penned the lines, when we knew that Gormely was still in Bullionville? Sonny, if you would confine yourself to asking questions, you might at some future day be able to engineer a chicken ranch on a small scale; but for the benefit of Nick Miller, "Jimmy Behind the Stove," and Wedge's Slippery Ephraim, we will say that you lied like Hades for an unfledged tenderfoot so lately weaned from your mammy's apron strings; for everybody here knows that Gormely was not in town, when we wrote the item, and did not put in an appearance for several days afterwards, and then he positively denied having used our name in the communication that found its way to your little sheet.

J. V. KEELY, who has been to Carson City and San Francisco, returned Thursday morning, by way of Silver Reef. He reports that though there are some 400 men at work at the Reef, every person is complaining and growing about the dull times, and that the Reef does not present any more livelier appearance than Pioche. The Barbee & Walker difficulty, perhaps, will be settled some time during the coming week.

J. POULADE has been receiving a large supply of fresh groceries, and now has a whole wagon train on its way from the terminus loaded with his winter's supplies.

WILL SUSPEND.—We are informed by the very best authority that the Bristol "Times" will suspend publication after its issue of the 16th, and that Mr. Trippel will proceed to Eureka, from which place he will probably go to Hot Creek, Nye county. Mr. Trippel is a steady and agreeable young gentleman, and wherever he goes, the RECORD wishes him success. As the "Times" is about to suspend publication, we will forego answering the article published in its last week's issue, thus permitting it to have the last say. Requester in pace.

OUR OLD FELLOW-TOWNSMAN Louis Klein, who has been a resident of Pioche for more than eleven years, during which period he had not been out of town but three times, and then for a distance not exceeding twelve miles, left Friday on a trip of recreation and pleasure. Accompanied by W. E. Griffin, he goes to Eureka by his own conveyance, and will thence proceed to Carson City, on a visit to his brother and sisters. He expects to be absent a month or so.

FOR FAMILY USE.—French Cognac, California Grape Brandy, White Rye Whisky, Old Bourbon Whisky, Jamaica Rum, St. Croix Rum, Holland Gin, Rock Candy and Rye, for sale by the gallon or bottle. TOYS! TOYS!—Next week John Shier will receive a large and various assortment of the latest style toys from the East, that for durability and beauty will surpass anything of the kind ever brought to Pioche. He will also receive a large supply of imported and domestic cigars. Don't fail to call at Shier's.

BILL McDONALD, who was foreman of the Meadow Valley and Raymond & Ely mines, also Superintendent of the Day Company at one time, after having been in Tombstone doing nothing for about three years, has at last secured the foremanship of a large mining property in old Mexico.

In Bristol, last Saturday night, Rafe Barton's wife presented him with a little daughter. Rafe is now of the opinion that the population of Bristol is twice as large as it was the day before the birth of his little girl.

BEN WOODS, whom all our residents will remember, died on the 25th of last month at or near Tombstone, Arizona. He leaves a wife and four children. The cause of his death was dropsy.

J. C. LYNCH has erected a building at Royal City and is placing men to work on his claims in Jackrabbit District.

The sale of the Bennett's Springs will take place in front of the court-house on Monday, the 11th inst.

SEVERAL OF OUR residents are contemplating a trip East to spend the winter. A. J. BLAIR and family have been spending a couple of days in town.

SOIRÉE.—On Tuesday evening a very pleasant soiree took place at the San Jose. It was an impromptu affair, gotten up on the afternoon of that day, and quite a number were in attendance, all of whom enjoyed themselves dancing until 2 o'clock next morning. Mrs. Pierson, the hostess, has the thanks of all who were present for the genial manner in which they were entertained.

A YOUNG Piocher visited Bullionville during the week, and the tiger clawed in \$650 of his coin. He has given up his trip to California to spend the holidays.

W. H. FOGG is now agent for the Eureka and Pioche stage line at this end of the route.

A LITTLE two-year-old child of Taylor Bird's recently died at Clover Valley.

THE weather is as delightful as a person could wish for.

A CHINAWOMAN died and was buried last Monday.

"Are churches practical?" asks the New York Tribune. Well, they seem to be. They continue to get money out of tight-fisted curmudgeons who dodge the tax collector.—(Boston Post.)

The total Mormon population of Utah is 90,337. There are 497 churches, 3,207 high priests, and 55,656 members—one high priest for every seventeen members in the Territory.
